

Calvos - Stilt Walkers

Stilt-statues and crystal ball jugglers

Beautiful and bizarre, two awesome-looking characters in intricate white costume, their entire skulls a brilliant metallic silver. Standing on stilts and viewed high above their audience, Calvos are elegant creatures of a tranquil and mysterious world.

International specialists in the art of 'contact juggling', Calvos manipulate crystal balls that glide, float, dance and levitate surreally around their hands, arms and bodies. Impossibly skillful, delightfully mesmeric and utterly astounding, this real-live magic must be seen to be believed.

Stunning, spine-tingling, elegant and serene, Calvos appear as either ground level crystal ball jugglers or stilt character statues - or both - in the same booking. Up to four characters now available.

We act as an agency for these fantastic performers.
They can be booked alone or alongside FFF shows and walkabouts
