

TECH SHEET

- All our performances are self contained for power, water and anything else we use.
- Storage space for props between performances is essential.
- Parking close to the performance site is the greatest gift you can bestow!
- Changing – the van is fine if it is close to the site, but feel free to spoil us.

CHEESY RIDER

- Self contained for power etc.
- For the maximum impact with the show we like to drive the bike / mini bar into position. For this to be safe we need a steward to lead the way (this only takes 2 minutes).
- There is also (sometimes) some fire juggling at the start so a steward to stop anyone encroaching over the boundary rope is advisable.
- It is the responsibility of the organiser to get any permissions for us to drive the bike on pedestrian areas, in processions etc. (We can push the bike into position if this is not possible)
- Performance space: semi-circle with 5m radius
